

## InterTAC (M) Sdn Bhd

## InterTAC Finds the Ease of Use and XML File Format of ActiveReports Key Factors in Rapidly Implementing Reporting Features

### Fast Facts

**Customer:** InterTAC (M) Sdn Bhd  
**Web site:** <http://www.intertac.net>  
**Industry:** Security & Surveillance Systems, Telemetry & SCADA System

### Customer Profile

Backed by a dedicated team of high calibre engineers, technology specialists and project managers with extensive experience region wide, InterTAC provides end-to-end Security & Surveillance solutions, Telemetry & SCADA Systems.

### Solution Profile

Intertac solutions feature comprehensive & complicated management reports for analysis purposes. Some reports require graphical presentation and some reports need to be saved to physical files for transfer. ActiveReports powers all reporting features of the applications.

### GrapeCity Software

- ActiveReports

“A superb report designer, very user friendly, and most importantly the whole report is XML ready.”

Chen Fock Siong, Software R&D Manager, InterTAC (M) Sdn Bhd

### Business Situation

Our customers need many comprehensive & complicated management reports for analysis purposes. Some reports require graphical presentation (for example. charts, graphs, et cetera) and some reports need to be saved to physical files for transfer.

### Why GrapeCity products?

We evaluated many reporting components, but chose ActiveReports because it is more user friendly, has a

generate the report. The reports are also XML ready.

### Solution

- We use the ActiveReports Designer to design and customize management reports.
- We enable the “Save As” function in the ActiveReports Viewer so that at runtime, users can save to the common file format they want (Excel or PDF).

# Customer Case Study ActiveReports

## Laporan Harian Operasi TMC

From Date

## Laporan Harian Operasi TMC

Date Range:	14/Jun/2010 09:28:27	Total No. of Records:	0
Report Generate On:	14/Jun/2010 09:28:27		
Selection Criteria:			
Date:	14/Jun/2010		

Highway	Accident	Death	Heavy Injure	Light Injure	Total Traffic
Grand Total	0	0	0	0	0
Hotline					

### Benefits

We don't have to create our own reporting tool. The XML-based RPX report format is very useful for us. We can save and reuse reports without recompiling our application.

### Looking Ahead

In the future, we will consider using other GrapeCity PowerTools to fast track our software development.

“Very powerful & user friendly Report Designer”
